

CONCIERGE CASE STUDY

# MEET JULI, FROM DALLAS, TX

"After I retired from my job in 2017, my husband and I went without health insurance due to Obamacare being way overpriced. Thankfully we're both healthy and so we only paid out-of-pocket a handful of times when we did have to go to the doctor. But in late 2019, we called Mark at the Revolt Healthcare Alliance and he was able to get myself, husband and son on a great plan. Our family plan costs about \$640 per month for all three of us but what we have received in return has far outweighed the cost and has benefited us greatly.

For example, in 2020, I had to get my 3 year colonoscopy (my mother died of colon cancer at 50, so I get them every 3 years now). My husband was due for his 5-year colonoscopy, so we scheduled a "double date" to get our procedures. After a quick call to Mark, he explained exactly what to do and guided us through the process, what we should expect to pay and what money we would get BACK, after our procedures. Yes, you read that correctly, we actually got money BACK after our colonoscopies.

The cash price of each colonoscopy was \$2000 which we paid because Mark said if we paid cash instead of filing a claim we would actually get money back. It was hard to believe but we trusted Mark and his agency and it all worked out the way he said it would. After our procedures, we submitted our receipts and sure enough, within a few short weeks, we not only received the \$4,000 back that we paid for the procedures, but **we were also paid an additional \$2,200 after the procedure because it cost less than what our insurance benefit was.**

I was actually paid for the "inconvenience " of having polyps removed, ensuring less of a chance they would turn into cancer! That's a win-win in my opinion! I have never been "paid" back anything after any type of procedure or doctor visit. So not only do I recommend the insurance coverage, but also the great concierges service Revolt Healthcare Alliance provides!

**Each time we have any questions or issues, we call Mark or one of his associates and are always taken care of quickly and professionally. After years of dealing with all of those "big" insurance companies, we feel so blessed to have found this policy and the Revolt Healthcare Alliance."**

*- Juli from Dallas, TX*

## HIGHLIGHTS

Juli called her concierge agent, Mark, to schedule her procedure appropriately, so that it would be covered under her benefits.

Juli got her procedure done and paid the cash price, like her concierge agent had advised her.

A few weeks later, Juli was fully reimbursed for her procedure AND received an additional \$2,200 cash back, because the cash price of her procedure was less than her benefit!

Thanks to her concierge agent, Juli was able to get the healthcare she needed, as well as the peace of mind that her healthcare wouldn't break the bank!
